

Rally news 12

30th May 2009.

Nakon prva tri brzinska ispita na Medvednici ponovno je došlo do promjena u vrhu poretka, posade se izmjenjuju sa svojim Peugeotima 207 S2000. Na vodećoj poziciji trenutačno je poljska posada Solowow/Baran

St. br. 3 – Corrado Fontana

«Danas je vrlo teško, vrijeme je nepredvidivo. Na Lazu je bilo suho, dok nas je na Sljemenu dočekala kiša, pa smo za takve uvjete odabrali krive gume. Očekujem da ćemo se u drugom krugu vratiti na prvo mjesto.»

St. br. 4 – Krum Donchev

«Zaostaci u vrhu su vrlo mali i to ovaj reli čini zanimljivim. Na posljednjem brzincu imali smo gume za suho vrijeme, a padala je kiša... Ne znam što očekivati do kraja... Borit ćemo se!»

St. br. 6 – Luca Betti

«Zasad jako dobro! Popravili smo vrijeme i pokušat ćemo nešto učiniti u zadnjem krugu.»

St. br. 5 – Juraj Šebalj

«Nismo zadovoljni. Probušili smo gumu na Sljemenu, pa smo išli polako. Vozimo dalje...»

St. br. 18 – Babszi Dienes

«Probušili smo gumu, imali smo probleme s elektronikom... Trenutačno smo deveti, a pokušat ćemo završiti kao sedmi.»

After three special stages at Medvednica Mountain the crews are swapping for leading place with their Peugeot 207 S2000. At this time the polish crew Solowow/Baran took the leading position.

st.no.3 – Corrado Fontana

“Weather conditions are very strange so it is very difficult today. At Laz it was very dry but at special stage Sljeme was raining so we choused the wrong tires. I expect that the second round will be better and that we will come back to first position.”

st.no.4 – Krum Donchev

«Gaps were quite small and that make this rally interesting. At last special stage we had tires for dry weather and it was raining... I don't know what to expect... We will fight!”

st.no.6 – Luca Betti

“It's quite good for now! We improved our position in timing and we will try to do best in last three stages.”

st.no.5 – Juraj Šebalj

“We are not satisfied. We had flat tire at Sljeme so we went slowly. We keep driving...”

st.no. 18 – Babszi Dienes

“We had a flat tire and electronic problems... We are 9th now and we will try to reach 7th place.”
